PROFILE

Enthusiastic and motivated undergraduate software engineering student seeking job opportunity in the entire world. Skilled in writing, debugging and testing code in Go, Dart, Kotlin, Java and JavaScript. Participated in the development of software system solutions. Looking for a job that will help me become a resourceful and successful professional.

EXPERIENCE

MZS Software House - Kuningan, Indonesia

Software Engineer Freelancer, 12/2021 - 10/2023

MZS Software House provides software products, including web and mobile applications. I leverage my expertise to create robust and scalable solutions. I have a strong foundation in languages such as Java, JavaScript, and Go, along with a passion for learning and problem-solving. I am involved in backend design and implementation, collaborate with senior team members, enhance my coding skills through feedback and code reviews, conduct unit tests, proactively troubleshoot technical issues, and foster innovation within the team through continuous learning.

CV Bing Elektronik - Jakarta, Indonesia

IT Support, 01/2020 - 08/2020

Bing Elektronik is a company that offers electronic products. I provided comprehensive IT technical support services and assisted global management teams in ensuring efficient business processes. I also provided services to the Application Management Group.

PT Astra Honda Motor - Jakarta, Indonesia

Maintenance Process Engineer, 12/2017 - 11/2019

Astra Honda Motor is a company involved in the manufacturing of Honda brand motorcycles. I am responsible for establishing and maintaining standard operating procedures for maintenance activities. Additionally, I oversee the construction of all panels and pass bars in the factory and conduct efficiency testing to ensure all systems are operating at their peak performance.
